

## FOOTGOLF COURSE

- A size 5 soccer ball is suggested (or a size 4 ball for ages 12 and under.)
- Play must not interfere with the group in front of you. Be mindful of safety and respectful of all other groups on the course.
- You must kick off between the red FootGolf markers and up to two yards behind the markers.
- You must not "push" the ball with your foot. Your foot must move (kick) into the ball.
- You must not kick a ball that is moving. Let it come to rest.
- Play the ball where it lies (except on a golf putting green or if it is in the way of another FootGolfer.)
- The FootGolfer farthest from the hole is first to kick. The FootGolfer with the lowest score on the previous hole is first to kick on the next tee.
- **You must not kick a ball that is lying on a golf putting green. Any ball on a golf putting green must be dropped at the nearest point fully off the green, no closer to the FootGolf hole, without penalty. Please do not run or drag your feet on the golf putting green.**
- You may leave the FootGolf flag in or take it out while kicking.
- A ball retriever/net is located near the edge of the water hazards for retrieving soccer balls.
- Only stationary kicks are allowed in a sand bunker. Please rake the bunker after kicking.
- Walk-in play is welcome, however, scheduled tee times will have precedence at the first tee. Tee times may be reserved in advance.
